**Smooth and Soft**

**Abrasion Resistance**

**Excellent  
Sport Performance**

**OCTO Golf Putting Green** are designed specifically for golf courses and ranges. It features high-intensity and rotational freedom, allowing for a realistic golf ball traction and roll.

**OCTO Golf Putting Green** also designed to be thick and solid, providing a durable surface that can withstand heavy foot traffic and weather conditions. Additionally, **OCTO Golf Putting Green** is a non-infill product, which means that it does not require any additional infill materials to be added to the surface.

**OCTO Golf Putting Green** has a natural look and feel due to its incorporation of golf standard grass curled fibers and evergreens. Its easy maintenance requirements make it an appealing choice for golf course and range managers who want to minimize upkeep time and expenses.
