

# OCTO FIBERGLASS PLANTER BOX WITH METAL STAND

**OCTO Fiberglass Planter Box** is resistant to rot, rust, and corrosion, making it suitable for outdoor use in various climates. It can withstand harsh weather conditions such as extreme heat, cold, and moisture without deteriorating.

**OCTO Fiberglass Planter Box** is much lighter than materials like concrete or metal, making it easier to transport and handle. This is especially beneficial for larger planters that may need to be moved occasionally.

When paired with a custom metal stand, the planter's visual appeal is enhanced, while also adding stability and elevating the plants for a more eye-catching display.

**OCTO Fiberglass Planter Box** is easy to clean and maintain. It doesn't require sealing or special treatments like some other materials, and it can be wiped down with soap and water to remove dirt and debris.

CODE	SIZE (L x W x H)	COLOUR	FINISHING
