Weight Empty (kg/m ²)	0.263
Planted* (kg/m ²)	25
Cells (Reservoirs)(nos.)	6
Water Storage: Planting Within (l/m ²)	10
Material	100% Recycled PP
Colour	Black / Green
Hinge Strength	> 500N

reservoirs & overflow

anchoring bolts & hooks

irrigation slots

Features:

- Lightweight
- Multiple mounting
- Easy to install
- Efficient water drainage
- Cost Effective
- Reusable and recyclable

OCTO Green Wall Planter Box® is an easy-to-install and low-maintenance green wall system allows for convenient plant maintenance and design change.

OCTO Green Wall Planter Box® is a single piece lightweight and engineering designed with a smoothen exterior surface.

OCTO Green Wall Planter Box® comes with 6 individual cells that acted as reservoirs with water storage capacity of approximately 10 l/m² to nourish plants. The 2 overflow outlets within the **OCTO Green Wall Planter Box®** drains excess water to prevent over flooding and overweight.

OCTO Green Wall Planter Box® can be easy mounted at the back on structures either by using stainless steel clips or anchor bolts to create a green wall.

Manufactured from 100% environmentally friendly recycled plastics
