

NetBow™

An innovative user friendly container irrigation, multi outlet dripping arc with high clogging resistance and superb water distribution.

User friendly

High clogging resistance

Superb uniformity

/ Benefits & Features

- **User friendly** Easy installation, reducing labor costs at installation and during crop rotations.
- **High clogging resistance** Even with challenging water quality, with self cleaning labyrinth that flushes debris, throughout operation.
- **Superb uniformity** NetBow™ features eight of Netafim's high clog-resistant labyrinths, ensuring uniform water distribution with reduced clogging risk.
- **Wide filtration area** Ensures optimal performance even under harsh water conditions, preventing the entrance of sediments into the labyrinths.
- **TurboNet™** Labyrinth ensures wide water passages, to increase flushing efficiency. The water is drawn into the dripper from the stream center, preventing the entrance of sediment into the drippers.

/ Specifications

- ✓ The flow from each dripping outlet will be determined by the hub dripper, divide evenly by 8.
- ✓ Compatible with 20-40 liters containers.
- ✓ Diameter: 250 mm.
- ✓ Max. operating pressure: 4.0 bar.
- ✓ Min. operating pressure: according to hub dripper specifications. At the hub dripper inlet.
- ✓ Superb chemical and UV resistance for extended durability.
- ✓ Colored light gray for improved light reflection.
