

# OCTO ACCESS PANEL

Designers love our **OCTO Access Panel** because our designs are elegant, and visually appealing. The panels are easily finished to match surrounding areas whether with tile, wallpaper, paint and other. The options are only as limited as your imagination. The quality of our bauco wall or plumbing access panel has become the industry standard for high-end construction projects.

This is a revolution in **OCTO Access Panel** appearance adding the missing element in a concealed finish to your access doors for plumbing and others.

## Plumbing Part and Others:

Module Size : 200mm, 250mm, 300mm x 300mm

Material : 100% PS White

Weight : 0.47 / 0.50 / 0.61KG

Colour : White

## Benefits:

- Virtually invisible access opening
- Clean, continuous surfaces without visible hardware
- Apply your choice of surface treatments directly to the door leaf
- Superior acoustics
- Lightweight
- Economical

## Installation Step:

Install the frame

Bond tile on to panel

Slot panel to frame

Close and done
